TO SEE OR NOT TO SEE

By default, the video you were watching when you entered the Home screen continues to play in the background. Similarly, on most other TiVo menu screens, a video window located in the upper right corner plays the current video as well.

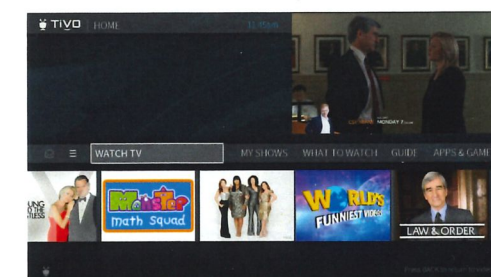

To watch the video in full screen, press the BACK button on your remote control.

You can choose how to display a video on the Home screen, or choose to turn it off completely. Just select *Menu > User Preferences > Video Window & Background*.

- To turn video off on all screens, set *Display Video* to *No*.
- To continue to display video, set *Display Video* to *Yes*. You can then choose how to display it on the Home screen by modifying the *Video on HOME* setting:
 - Full screen (background): The currently-playing video is shown as a full-screen video in the background of the Home screen
 - Video window (top right): The currently-playing video is shown in the upper-right corner of the Home screen.

WELCOME TO THE TIVO® EXPERIENCE!

The TiVo experience instantly gives you total control of the TV programming you love, and much more! Unlike traditional TVs and set top boxes that get a TV signal over a coaxial cable connected to a cable wall jack in your home, your TiVo streaming device gets the TV signal over a wired or wireless connection to your home network. You'll receive all of your channels, as well as access to streaming providers, over that one connection.

Want to record shows? Network/Cloud DVR allows you to record shows to watch later. The shows will be stored in the cloud for a specified period based on your OnePass settings.

HOME SCREEN

START HERE FOR JUST ABOUT EVERYTHING.

The Home screen is the starting point for just about everything you do with your TiVo box. From the Home screen, you can easily access popular destinations in the TiVo experience; get personalized recommendations from the SmartBar and What to Watch, and view settings.

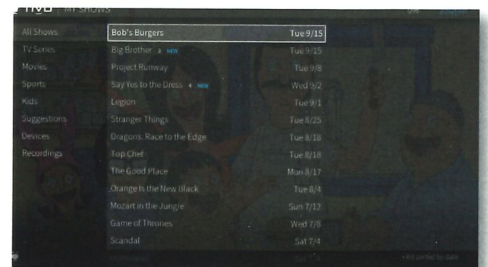

To get to the Home screen from anywhere in the TiVo experience, just press the TiVo button  on your remote control.

MY SHOWS

FIND. WATCH. REPEAT.

All of your recordings and streaming videos appear in the My Shows list. To get to the My Shows list from any menu screen or from live TV, just press the TiVo button twice. (Just select My Shows or press the TiVo button once if you're already on the Home screen.)

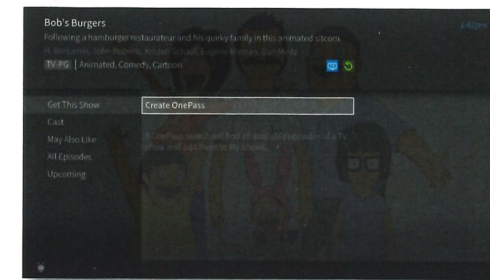

Filters in the left column of My Shows let you narrow your choices instantly. As you highlight a filter, your My Shows list will update automatically. Filters include TV Series, Movies, Kids, and more.

ONEPASS

YOUR TICKET TO LIMITLESS ENTERTAINMENT

OnePass gathers every episode of a series available anywhere and adds them all right to your My Shows list. If it's not available on TV or video on demand, OnePass fills in the gaps with episodes from providers like Netflix. To create a OnePass, find a show you want to watch, then choose "Create a OnePass."

THE SMARTBAR

READY WHEN YOU ARE

The SmartBar, located at the bottom of the Home screen, predicts shows to watch based on what your household usually watches at a particular time or day. For example, if the kids tend to watch shows while dinner's cooking, their shows will be waiting in the SmartBar at that time each day.
